

Manchester Biomolecular

An international symposium at the chemistry biology interface.

Tuesday 7th April 2009
School of Chemistry
University of Manchester
10.30 am – 6 pm

- | | |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------|
| 10.30 am | Professor Dawei Ma, Shanghai
T Y Shen Lecture
<i>Total synthesis and SAR studies toward marine cyclic depsipeptides</i> |
| 11.30 am | Professor Dirk Trauner, Munich
<i>Building molecules to tackle cancer and blindness</i> |
| 12.30 pm | Lunch, Chemistry Concourse |
| 1.30 pm | Professor Lutz Tietze, Göttingen
<i>Novel approaches for the selective treatment of cancer</i> |
| 2.30 pm | Professor Thomas Carell, Munich
<i>Chemical studies of DNA repair</i> |
| 3.30 pm | Tea and Coffee, Chemistry Concourse |
| 4.00 pm | Professor Jean-Marie Lehn, Strasbourg
<i>Supramolecular and constitutional dynamic chemistry: bioorganic aspects</i> |
| 5.00 pm | Professor John Sulston, Manchester
<i>What is science for?</i> |

Wine Reception, Chemistry Concourse
